List of users who logged in to the system.

Local order

(Cart -> List "Order preparation")

All the entries are saved in the local database. Entries can be modified at will.

There are two types of orders in the program

Online order

(Cart -> List "Currently processed order")

Every item is reserved in the Saga Auto system and saved in the local database. With this type of order it is only possible to increase the quantity of the items the user wants to order.
